

Bulk Water Agreement Addendum

(Use when a Bulk Water customer selects option to keep CLWSC meter)

- 1) A \$1,000 Bulk Water Meter deposit is required to cover any damages while bulk water meter is in your possession. This deposit will be returned when meter is returned and/or account is closed. (This deposit is in addition to the normal \$400 deposit required of all Bulk Water applicants).
- 2) Certification by CLWSC Field Service Representative of proper tools to operate bulk water meter is required.
- 3) Each 25th or 26th day of each month, CLWSC will require a photograph of the meter register to verify the reading for billing purposes. You may email the photograph to billing@clwsc.com. Please ensure you include your name and account number on the email. Failure to provide required read information may result in forfeiture of bulk water meter privileges.
- 4) The meter will need to be inspected and tested annually. In most cases, you will be issued a new meter. Our Field Service department will arrange for an annual schedule.
